BD INSYTE™ AUTOGUARD™ - WINGED
BD code: 381923
Gauge: 22G
Gauge mm: 0.9x25 mm
Colour: blue

BD Insyte™ Autoguard™ shielded IV catheters are over-theneedle, intravascular (IV) catheters that incorporate advanced safety features including a push button that instantly retracts the needle.

Enhanced Safety
BD push-button needle shielding technology is demonstrated to reduce risk of accidental needlestick injuries.

Insertion success in sight
BD Instaflash™ needle technology incorporates a notched needle, which clinically demonstrated improved first-stick insertion success, reducing painful hit-and-miss insertions.

Reduced complications
BD Vialon™ biomaterial softens up to 70% in the vein, enabling longer dwell times and reducing the chance of mechanical phlebitis. Intended to be inserted into a patient's peripheral vascular system for short term use to sample blood, monitor blood pressure, or administer fluids. Available with or without wings.

Multilingual manual and box in GB, FR, IT, ES, DE, PT, NL, DK, SE, NO, FI, LT, EE, PL, CZ, SK, HU, SI, HR, RO, BG, GR, RU, TR, Arabic.
