## Description

SALIVA COVID TEST - professional - box of 20

The COVID-19 Antigen Rapid Test (Oral Fluid) is a qualitative rapidchromatographic immunoassay for the qualitative detection of SARSCoV-2 Nucleocapsid (N) protein antigens in oral fluid specimens fromindividuals with suspected infection. It's a single-use test kit intendedto detect the coronavirus SARS-CoV-2 through human oral fluid.This test is designed for professional use.
Research shows that the SARS-CoV-2 virus is stable in oral fluid forlong periods of time at warm temperatures.
- fast results: 15 minutes
- high accuracy
- convenient procedure
- easy interpretation
- simple operation
- relative specificity: 99,3%
Storage temperature: 2-30°C

Shelf life: 24 months (Gima stock may vary from 6 to 22 months)
