Description

GYNOSEED® FERTILITY GEL - tube 5 ml - box of 8

Gynoseed® Fertility Gel is ideal for women trying to conceive: it allows sperm to move efficiently to the targeted area, maximizing chances of getting pregnant.
It supports sperm motility as it reaches the egg, thus increasing the probability of fertilization.
In addition, it is effective in maintaining sperm vitality as it simulates the environment in which it can survive.
Fertility Gel is applied inside the vagina before the sexual intercourse.
Gel is formulated to provide a balance of pH to increase the survival of the sperm and contains magnesium and calcium ions to support conception.
Paraben free.
