Description

FARMAGEL® C LUBRICATING GEL WITH CHLORHEXIDINE - single use squeeze bulb 12.5 g - sterile - box of 25

Farmagel® C is a sterile water-soluble, grease-free, transparent lubricating gel.
Suitable for endoscopic procedures which require lubricating action.
It reduces friction between probe and mucosa facilitating the entry of diagnostic or therapeutic devices into the body.
It does not irritate and is easily removable from skin and clothing.

Ingredients: chlorhexidine (0.05%), hydroxyethyl cellulose, glycerin, purified water, hydrochloric acid. Class IIa medical device.

Made in Italy.
