Description

DIATERMO 106 - 50W - monopolar

This HF electrosurgery unit is particularly suitable for small operations and is recommended for dentistry, first aid and dermatology work.
It offers precision of cut and immediate coagulation and give excellent results in a wide range of applications: from uterine coagulation to microcoagulation in dermatology.
The modes of operation, CUT, COAG or BLEND, can be easily selected by a switch on the front panel.
The complete isolation between patient and the unit and strict respect of international norms guarantee total safety.

Made in Italy.
