• Connector: needle-free
• Sale formats: single
• box of 270

3M™ CUROS™ DISINFECTING CAPS
3M™ Curos caps disinfect in 1 minute and protect needle connectors and Luer to help reducing the risk of contaminants from entering the catheter post-insertion, for up to 7 days if not removed.
Caps twist on easily and stay securely in place, preventing contained alcohol (70% isopropyl alcohol) from spreading within patient's circulatory system.
For single use only.
Suitable for needle-free connectors (34980), male Luer (34981) and open female Luer (34982).
