Description

GERMOCID ALKANET - tank 5l

Germocid Alkanet is a concentrated alkaline detergent which can effectively remove blood, protein, culture media, food residuals from medical instruments and medical devices. It is suitable for use in automatic washing equipment and for treatments in immersion or with ultrasound equipment. Its particular formula effectively removes dirt without altering the materials. It contains ecofriendly ingredients that prevent the sedimentation of organic residuals reducing the surface tension of the used solutions. Effective for the treatment of instruments in steel and stainless steel, optical equipment, conventional plastics and anesthesia instruments. For other types of materials (for example aluminum or light alloys) it is recommended to check the compatibility with the detergent. Use demineralized water for washing and rinsing.

Class I Medical Device.
MDR compliance (EU) 2017/745
