Description

EURONDA EUROSEAL® INFINITY SEALING MACHINE

Euroseal® Infinity is a practical, sturdy, reliable and easy to use electronic thermosealing machine for continuous cycle processing at constant temperature.

Compact design
Compact and functional design to minimise the space required for its use so it can be comfortably placed on a table top or wall-mounted (need optional kit) in a vertical position.

Versatile
The roll holder is adjustable in two positions: high for best performance when the machine is wall-mounted, or low to speed up roll selection and changing operations.

Ergonomic
The new built-in cutter and sealing lever positioned at the front, not only improve ergonomics and safety, but also make packaging and sealing operations easier.

Safe
It has a metal bar that holds and locks the roll and ensures that it remains inside the sealing area. The smooth surfaces make it easy to clean.

Reliability
The quality of the materials and sturdy design make it indestructible, guaranteeing long-lasting efficiency and reliability.

Compliant with UNI EN 868-5 and EN 11607-2.
Multilingual manual: GB, IT. Available QR code manual in: FR, ES, PT, DE, PL, CZ, SI, RO, RS, RU.

Made in Italy.
