Description

FLAT REELS FOR STERILIZATION BY STEAM OR ETO - 200 m

External size: 200 m x 100 mm

Sterilization reels produced with the best certified materials: high grammage medical paper (60 g/m²) and a double layer of polyethylene/polypropylene film (55 g/m²), in compliance with MDR (EU) 2017/745 specially designed to ensure high antibacterial protection for medical sterilization.
They guarantee a constant seal during sterilization; extreme ease of opening without fibre release or tearing; proper maintenance of sterility.
Medical Device Class I.
Indicators provide clear colour changes when exposed to sterilization process:

- steam: light blue to green
- ethylene oxide: pink to orange
- formaldehyde: green to yellow.
