Description

GERMORAL ANTIBACTERIAL MOUTHWASH

12 bottles of 300 ml + display

For daily oral hygiene, Germoral prevents and acts against the formation of bad breath because it stops fermentation in the oral cavity.
It performs an antiplaque and hygienic action.
Suitable for smokers, prothesis or paradontic teeth users or after dental surgery for disinfecting the oral cavity.
If regularly applied it prevents and acts against inflammations, gingival disorders, dental plaque formation.
