Description

GERMOCID INSTRUMENTS - DILUITED 2% - bottle 1 l - box of 12

Ready to use solution with a detergent and disinfectant action for invasive medical devices and surgical instruments. Specific product for the cleaning, highlevel disinfection and decontamination before the sterilization of surgical instruments and invasive medical devices. It has a high efficiency as detergent and disinfectant also in presence of organic material (blood, saliva, organic exudates) and it can be also used on dental instruments. The dirt removal does not require mechanical action. It is active against Gram+ and Gram- bacteria, fungi, mycobateria and viruses (HIV-HBV-HCV).

For professional use.

Medical Device class IIb in compliance with Directive 93/42/EEC.
Instructions: GB, FR, IT.

Made in Italy.
