Description

GERMOCID INSTRUMENTS CONCENTRATED - bottle 1 l

Concentrated solution for a quick and effective cleaning and disinfectant action, before sterilization. The diluted solution is used on invasive surgical instruments contaminated with organic material (blood, saliva and biological exudates) and does not require mechanical action to complete the cleaning process. It is a specific product for decontamination, cleansing and high level disinfection of invasive surgical instruments: the formulation is active against Gram+ and Gram- bacteria, fungi, mycobacteria, viruses (Adenovirus, HIV, HBV, HCV) and spores.

For professional use.

Medical device Class IIb to be notified according to Regulation (EU) 2017/745.
Instructions: GB, FR, IT.

Made in Italy.
