Description

AGANI™ HYPODERMIC NEEDLES
- Terumo code: AN*2232R1
- Neddle: 22Gx1 1/4" - 0.7x32 mm
- Colour: black
- Minimum order: box of 100

Sterile hypodermic needles for single use, suitable for a wide range of applications. Special geometry of the sharp lancet point facilitates the penetration of the skin and helps to minimize the trauma. Silicone-coated cannula provides good gliding properties for a smooth penetration and prevents any knocking effect.

Agani hypodermic needles provide you and your patients with the best possible levels of care and comfort. Hub made of polypropylene, needle made of stainless steel. ISO colour-coded hub allows to recognize the diameter of the needle. Class II a. MDR 2017/745. Shelf life at production: 5 years.
Individually packed in blister.

Multilingual box: GB, FR, IT, ES, PT, DE, PL, NL, HU, GR, BG, RO, FI, NO, SE, DK, CZ, SK, SI, RS, EE, LV, LT, TR, RU.
