Description

HEIGHT ADJUSTABLE PATIENT TROLLEY - TR and RTR

Two-section variable-height stretcher with adjustable backrest by gas devices up to 65°. Top made of radiolucent Hpl, steel frame and long leg section made of painted steel.
Possibility of insertion of cylinder basket and four IV poles, two in the head and two in the foot area.
Side bumpers on the frame for protection of the stretcher.
Two collapsible handles on the head side and one on the foot side, all in painted steel, to provide a safe and comfortable grip.
Adjustable height 530 to 890 mm by a large pedal located in the foot area.
All steel parts are epoxy powder coated.
Manual Trendelenburg and Reverse Trendelenburg (±18°) by lever located at the foot side of the stretcher.
Sturdy folding steel side rails with compass movement.
Four castors Ø 200 mm with simultaneous brake controlled by centralized pedal, directional ones at the head.

Made in Italy.
