Description

WASH-BASIN PUMP SYSTEM - white

Pump wash-basin with round bowl in satin stainless steel, non-connected to the water mains. The system ensures the availability of water when it is expensive or impossible to lay drain-pipes in the walls or floors.

Dimensions: 47x54xh 86 cm

It only requires a 230V power socket: the low voltage transformer (12V) drives a pump for supplying water by a simple pressure of the foot on the base.

Equipped with 2x20 litre tanks for water supply and drain.
