PLASTOD

INDICAZIONI _ **Cerotti resistenti all'acqua**, in morbido polietilene micro-perforato rosa. Traspiranti, tampone assorbente antiaderente. Adesivo ipoallergenico, testato dermatologicamente.

INDICATIONS _ **Water-resistant plasters**, in soft pink micro-perforated polyethylene. Breathable, absorbent non adhering pad. Hypoallergenic adhesive, dermatologically tested.

INDICATIONS _ **Pansements** en polyéthylène souple chair, micro perforés, **résistants à l'eau**. Respirant, gaze absorbante anti adhérente. Adhésif hypoallergénique testé dermatologiquement.

INDIKATIONEN _ **Wasserfeste** luftdurchlässige Pflaster-Strips aus mikroperforiertem hautfarbem Polyethylen. Absorbierendes Wundkissen mit nicht verklebendem Netz. Hypoallergener Klebstoff. Dermatologisch getestet.

INDICACIONES _ **Apòsitos** de polietileno micro-perforado rosa **resistentes al agua**. Respirable, almohadilla absorbente antiadherente. Adhesivo hipoalergénico, dermatológicamente probado.

ISTRUZIONI PER L'USO _ Pulire, disinfettare ed asciugare la ferita. Applicare il cerotto esercitando una lieve pressione per far aderire bene i bordi alla pelle. Rinnovare all'occorrenza.

INSTRUCTIONS FOR USE _ Clean, disinfect and dry the wound. Apply the plaster by pressing lightly to make the borders well adhere to the skin. Renew if necessary.

MODE D'EMPLOI _ Nettoyer, désinfecter et sécher soigneusement la plaie et son pourtour. Appliquer le pansement en lissant les bords. Renouveler quand nécessaire.

ANWEISUNGEN ZUR VERWENDUNG Reinigen, desinfizieren, und die Wunde trocken. Das Pflaster mit leichtem Druck an den Rändern befestigen. Ggf. erneuern.

INSTRUCCIONES PARA EL USO _ Limpiar, desinfectar y secar la herida. Aplicar los apòsito presionando ligeramente para que adhieran bien los bordes a la piel. Reemplazar cuando necesario.
