Technical sheet

Procedural Face Mask

Reference

NON27412EL

Description

Fluid Resistant Procedural Face Mask with Earloops, Purple

Technical data

Physical Properties	EN14683 Type IIR Requirements	EN14683 Type IIR Medline Results
Bacterial Filtration Efficiency (BFE%) at 3 micron	≥ 98.0%	99.4%
Differential Pressure (Pa/cm²)	<49.0	36.92
Splash Resistance (kPa)	≥16.0	21.00
Microbial cleanliness (cfu/g)	≤ 30.0	4.96

Main materials

Outer Facing:	Spunbond Polypropylene, Purple
Layer 2 :	1 ply SMS, White
Layer 3 Filter Media:	1 ply Meltblown Polypropylene, White
Inner facing:	Thermalbond Polypropylene and polyethylene, White
Earloops	Tubular Latex Free Elastic, White
Anti-Fog:	Foam Strip

Pack factor

300 ea/cs

Packaging

50 units per dispenser box, 6 boxes per case

Manufacturer

Legal manufacturer: Medline Industries, Inc – USA EN ISO 13485
Manufactured in a WRAP-certified facility.
Medline supports labour and human rights.

Regulation

Conforms to EU Directive 93/42/EEC - Class I non-Sterile
Conforms to EN 14683, Type IIR
